

Construction Shovel
(EXTINCT)

Splinters maximus, productivity minimus.

When Ditch Witch® went looking for the strongest, most efficient engine to carry its RT24 Walk-Behind Trencher into the future of digging, the search ended with Honda. (And as for the old construction shovel, let's just say it dug its last ditch.) That's because the Honda GX690 V-Twin engine harnesses high-performance power, fuel efficiency and exceptional versatility like no other. It's even backed by our 3-Year Warranty.* So if you, too, are ready to partner with a forward thinker who can maximize your equipment's productivity and value, visit hondaengines.com, where you'll find superior engineering quality that's far from extinction.

HONDA
ENGINES

Built like no other.

Ditch Witch RT24/Honda GX690
